

How to Hang Your Sign

Use screws or nails to mount your yard sign onto a wooden stake, post, or fence. Use zip ties to mount the sign to a metal t-post or fence. Check with your local hardware store for additional mounting suggestions. Avoid mounting your sign in direct sun to help it last longer. Please do not leave exposed holes to keep birds safe from getting stuck.

Sign the Pledge

Grow pollinator-friendly flowers, provide nest sites, avoid pesticides, and spread the word. Learn more and share your commitment to pollinators by signing the Pollinator Protection Pledge at xerces.org/pollinator-conservation.

Send a Picture

We love to see pictures of Xerces Society yard signs in gardens! Post and tag @xercessociety on social media or email your photos to membership@xerces.org.

Thank You

Thank you for supporting the Xerces Society and spreading the word with your yard sign! Xerces is a donor-supported nonprofit organization. We couldn't do our work without donors like you!
